

**Oral care for adult cats**

**Feline Oral Care Chicken:**  
 Bags of 300 g, 2 kg and 5 kg

**DAILY FEEDING AMOUNTS**

These ranges are a starting point only because animals' needs vary. Adjust the feeding amount to maintain optimal body weight.

Body Weight kg	Dry grams
2	35 - 45
3	45 - 65
4	55 - 80
5	65 - 95
6	75 - 105

**Indication**

Adult cats, to reduce dental plaque, stain and tartar and oral malodour.

**Not recommended for:**

- Kittens.
- Pregnant or lactating queens. During pregnancy and lactation queens should be switched to **Science Plan Kitten**.

**Additional information**

- Science Plan Feline Oral Care Adult is most effective when,
  - used on clean teeth
  - fed as the sole maintenance food
  - fed dry (adding water limits effective cleaning).
- Contains no mineral abrasives or active chemicals.
- Effective against plaque (the main cause of periodontal disease) as well as tartar.
- Other dental home care methods are also recommended, if possible, e.g. regular tooth brushing.

**KEY BENEFITS**

<b>Total fibre</b>	Increased	Fibre matrix resists crumbling. Kibble engulfs tooth before it splits and fibres wipe the tooth surface clean.
<b>Alignment of fibres</b>	Non-random	
<b>Kibble size</b>	Larger	
<b>Protein</b>	Controlled	Limits a component of plaque.
<b>Calcium</b>	Controlled	Limits the mineralisation of plaque to tartar.
<b>Magnesium</b>	Controlled	Supports urinary tract health.
<b>Phosphorus</b>		
<b>Target urinary pH</b>	Acid: pH 6.2–6.4	Supports urinary tract health.
<b>Superior antioxidant formula</b>	Added	Reduces oxidative cell damage and aids dental health.

**INGREDIENTS**
**DRY**

**Chicken** (minimum Chicken 43 %; minimum Chicken and Turkey combined 58 %): Chicken and turkey meal, ground rice, ground maize, maize gluten meal, cellulose, animal fat, vegetable oil, digest, potassium chloride, calcium sulphate, dicalcium phosphate, salt, DL-methionine, taurine, vitamins and trace elements. Naturally preserved with mixed tocopherols, citric acid and rosemary extract.
