

# Prescription Diet® t/d® Canine Dental Health

## Oral Health

Dental care for your pet may be more important than you think. The accumulation of bacteria laden plaque above the gumline can lead to long term oral health issues. Recent studies have demonstrated there is an association between oral health issues and systemic general health issues affecting the kidney, heart and metabolic systems.

At Hill's, nutritionists and veterinarians have developed clinical nutrition especially formulated to keep your dog's teeth clean and help control the oral bacteria found in plaque.

WHERE TO BUY ▶

## Key Benefits

Prescription Diet® t/d® is formulated with the following benefits:

- **Unique kibble scrubs away laden plaque in the mouth to promote systemic health**
- **Clinically proven to reduce plaque, stain and tartar buildup**
- **Reduces bad breath**
- Added antioxidants to control cell oxidation and promote a healthy immune system
- Awarded the Veterinary Oral Health Council (VOHC) Seal of Acceptance for helping reduce both plaque and tartar accumulation

## Additional Info

Hill's® Prescription Diet® t/d® Canine is a complete and balanced food that provides all the nutrition dogs need. Please consult your veterinarian for further information on how our Prescription Diet® foods can help your dog to continue to enjoy a happy and active life.

## Feeding Guide

### Daily Feeding Guide:

### Important Feeding Information

- **These amounts are a starting point only. Your dog may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**
- With your veterinarian's approval, mix increasing amounts of your dog's new food with decreasing amounts of the old food over a 7-day period. Prescription Diet formulas are available in a wide variety of dry foods and treats for your dog's unique needs, and canned foods with delicious flavors your dog will love.
- **For maximum benefit**, this product must be fed as the only food. Supplementation is unnecessary and may decrease the effectiveness of the food.
- **Keep fresh water available at all times!**
- For best results, have your veterinarian monitor your dog's condition.

## Adult maintenance

### For Dogs < 15 lbs (6,8 kg)

#### Weight of Dog

#### Amount per Day

#### Kibbles per Day

5 lb (2,3 kg)

2/3 cup (45 g) - 1 cup (70 g)

21 - 31 Small or 10 - 15 Original Bites

10 lb (4,5 kg)	1 1/8 cups (80 g) - 1 5/8 cups (115 g)	35 - 50 Small or 17 - 24 Original Bites
15 lb (6,8 kg)	1 5/8 cups (115 g) - 2 1/4 cups (160 g)	50 - 70 Small or 24 - 34 Original Bites

For Dogs > 15 lbs (6,8 kg)

Weight of Dog	Amount per Day*
20 lb (9,1 kg)	2 cups (140 g) - 2 3/4 cups (195 g)
30 lb (14 kg)	2 2/3 cups (190 g) - 3 3/4 cups (265 g)
40 lb (18 kg)	3 1/3 cups (235 g) - 4 2/3 cups (330 g)
50 lb (23 kg)	4 cups (285 g) - 5 1/2 cups (390 g)
60 lb (27 kg)	4 1/2 cups (320 g) - 6 1/4 cups (445 g)
70 lb (32 kg)	5 cups (355 g) - 7 cups (495 g)
80 lb (36 kg)	5 2/3 cups (400 g) - 7 3/4 cups (550 g)
100 lb (45 kg)	6 2/3 cups (475 g) - 9 1/4 cups (655 g)

\*One cup of t/d Original equals 15 kibbles. One cup of t/d Small Bites equals 31 kibbles.
