

Prescription Diet® Hypoallergenic Treats

Treats for cats with food allergies and skin conditions

Because cats with skin conditions or food allergies also need an occasional treat, at Hill's, nutritionists and veterinarians have developed hypoallergenic treats for cats on Prescription Diet® d/d®, z/d® ULTRA and z/d® Low Allergen.

WHERE TO BUY ►

Key Benefits

- **Help eliminates the potential for allergic response** with hydrolyzed protein
- Increased omega-3 and omega-6 fatty acids, including EPA, **help to nourish the skin and help to manage inflammation**
- Added antioxidants to help **support skin barrier function**

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- Do not feed more than the maximum number of treats per day listed below, based on the cat's ideal body weight.
- **If the cat tends to gain weight when supplementing with Prescription Diet® Hypoallergenic Treats, adjust as needed to maintain proper body weight.**
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**

Adult maintenance

| Weight of Cat | Amount per Day |
|----------------|----------------|
| 6 lb (2,7 kg) | 9 |
| 10 lb (4,5 kg) | 13 |
| 14 lb (6,4 kg) | 17 |
| 18 lb (8,2 kg) | 20 |
