| Easy to digest | High quality ingredients | Ensures optimal nutrient absorption to keep your dog fit and healthy. |

Other Products to Consider

Science Diet® is available in a wide variety of dry foods for your dog's unique needs, and canned foods, with many delicious flavors your dog will love.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- Cover and refrigerate unused portion.
- **These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure ask your veterinarian.**
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.
- When using with Science Diet® dry food, decrease the amount of canned food to avoid overfeeding.
- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give him the same precise and balanced nutrition by transitioning your dog to one of the Hill's® Science Diet® Mature Adult pet foods once he reaches 7 years of age.
- Science Diet is available in a wide variety of dry foods for your dog's unique needs, and canned foods, with many delicious flavors your dog will love.
