Adult Lamb Meal & Rice Recipe

Hill's® Science Diet® Adult Lamb Meal & Rice Recipe dog food provides precisely balanced nutrition to maintain lean muscle and promote digestive health. It contains an optimal balance of all essential nutrients and high quality lamb meal for overall health and easy digestion. It also contains Omega-3 and Omega-6 fatty acids for healthy skin and radiant coat.

Key Benefits

Recommended For:

Adult dogs 1 - 6 years of age.

Not Recommended For:

Puppies, pregnant or nursing dogs, or mature adult dogs. During pregnancy or nursing, dogs should be switched to: **Science Diet® Puppy Healthy Development Original**, **Science Diet® Puppy Small Bites**, **Science Diet® Puppy Lamb Meal & Rice Recipe**, **Science Diet® Ideal Balance™ Puppy** or **Science Diet® Healthy Advantage™ Puppy**

Benefit:	Nutrient:	How it Works:
Healthy immune function	Vitamin C + E	Optimal levels of clinically proven antioxidants for a healthy immune system.
Easy to digest	High quality ingredients, such as lamb meal.	Ensures optimal nutrient absorption and comfortable digestion to keep dogs fit and healthy.
Healthy skin and radiant coat	Omega-3 and Omega-6	Precisely balanced blend of Omega-3 and Omega-6 fatty acids are building blocks for a healthy skin and a radiant coat.
Lean muscle and ideal body weight	High quality lean proteins	Protein is the building block for lean muscle and helps maintain ideal body condition.
Healthy vital organs	Controlled levels of minerals including sodium, magnesium and phosphorus. Supplemented with taurine and soluble and insoluble fiber.	Controlled levels of minerals such as sodium for heart health, magnesium for bladder health and phosphorus for kidney health. The product is supplemented with taurine for heart health and soluble and insoluble fiber for digestive tract health.

Other Products to Consider

Science Diet is available in a wide variety of dry foods for your dog's unique needs, and canned foods, with many delicious flavors your dog will love.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.

- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period
- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give him the same precise and balanced nutrition by transitioning your dog to one of the Hill's® Science Diet® Mature Adult pet foods once he reaches 7 years of age.
- Science Diet is available in a wide variety of dry foods and treats for your dog's unique needs, and canned foods, with many delicious flavors your dog will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
