Additional Info

Dry and canned formulas meet strict regulatory guidelines for low-calorie, low-fat foods.

Our 150 veterinarians, PhD nutritionists and scientists ensure that over 50 nutrients in Hill's Science Diet dog foods work together and fall precisely within appropriate ranges, avoiding nutrient excesses and deficiencies that can impact your dog's long term health. Hill's stands behind quality of our product. If you, or your dog, aren't completely satisfied, just return the unused portion to the place of purchase for a full refund or replacement.

Other Products to Consider

Science Diet® is available in a wide variety of dry foods for your dog's unique needs, and canned foods, with many delicious flavors your dog will love.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- Cover and refrigerate unused portion.
- **These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust**

as needed. If you are unsure, ask your veterinarian.

- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.
- When using with Science Diet® dry food, decrease the amount of canned food to avoid overfeeding.
- **Keep fresh water available at all times!**
- Your pet's nutritional needs change with each lifestage. Continue to give him the same precise and balanced nutrition by transitioning your dog to one of the Hill's® Science Diet® Mature Adult pet foods once he reaches 7 years of age.
- Science Diet is available in a wide variety of dry foods for your dog's unique needs, and canned foods, with many delicious flavors your dog will love.
- We recommend Science Diet® Simple Essentials™ Treats Light Adult Biscuits for dogs eating this product.
