## Other Products to Consider

Science Diet is available in a wide variety of dry foods and treats for your puppy's unique needs. Canned puppy food is also available from Science Diet in a delicious savory chicken flavor your puppy will love.

## Feeding Guide

### Daily Feeding Guide:

### Helpful Tips

- **For puppies/pregnant dogs: begin by feeding the suggested daily amount. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**
- **For nursing dogs: keep food available at all times.**
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.

- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give him the same precise and balanced nutrition by transitioning your puppy to one of the Hill's® Science Diet® Adult dog foods once he reaches 1 year of age.
- Science Diet is available in a wide variety of dry foods and treats for your puppy's unique needs. Canned puppy food is also available from Science Diet in a delicious savory chicken flavor your puppy will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
