

Science Diet®

Puppy Lamb Meal & Rice Recipe Large Breed

Rich in fish oil and nourishing fatty acids.

Hill's® Science Diet® Puppy Lamb Meal & Rice Recipe Large Breed dog food gives your puppy precisely balanced nutrition to build joint and digestive health. It is enriched with L-Carnitine for healthy body composition and has optimal levels of calcium for controlled bone and joint growth. It is made with **high quality lamb meal** and gentle fibers for healthy

digestion and has clinically proven antioxidants for superior overall health.

WHERE TO BUY ►

Key Benefits

Recommended For:

Large breed puppies (over 55 lbs when adult) up to 1 year old.

Not Recommended For:

Pregnant or nursing dogs because of a lower energy density and lower calcium content (compared to **Science Diet® Puppy Healthy Development Original**). Pregnant or nursing dogs should be fed **Science Diet® Puppy Healthy Development Original**, **Science Diet® Puppy Small Bites**, **Science Diet® Puppy Lamb Meal & Rice Recipe**, **Science Diet® Ideal Balance™ Puppy** or **Science Diet® Healthy Advantage™ Puppy**

Benefit	Nutrient	How It Works
Healthy immune system within 90 days	Vitamin C + E	Optimal levels of clinically proven antioxidants to build a healthy immune system
Ideal body composition	Carnitine	Converts fat into energy and helps develop lean muscle.
Supports gentle, healthy digestion	High quality ingredients including gentle fibers	Ensure availability of key nutrients and proteins for the healthy development of your puppy.
Promotes healthy joint development and mobility	Vital fatty acids	Vital fatty acids ensure healthy development of bones and joints.
Healthy bone development	Calcium	Optimal levels of Calcium for controlled bone and joint growth in large breed puppies.

Other Products to Consider

For puppies that will weigh over 55 lbs at maturity: **Science Diet® Puppy Large Breed**.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.
- For pregnant or nursing large breed dogs: Science Diet® Puppy Healthy Development Original, Science Diet® Puppy

Small Bites, Science Diet® Puppy Lamb Meal & Rice Recipe, Science Diet® Ideal Balance™ Puppy or Science Diet® Healthy Advantage™ Puppy

- **Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.**
- Keep fresh water available at all times!
- **We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.**
- **Your pet's nutritional needs change with each lifestage. Continue to give him the same precise and balanced nutrition by transitioning your puppy to one of the Hill's® Science Diet® Adult dog foods once he reaches 1 year of age.**
- **Science Diet is available in a wide variety of dry foods and treats for your puppy's unique needs. Canned puppy food is also available from Science Diet in a delicious savory chicken flavor that your puppy will love.**
- To prevent suffocation, keep this plastic bag out of the reach of pets and children.
