

Science Diet®

Adult Hairball Control

Hill's® Science Diet® Adult Hairball Control cat food provides precisely balanced nutrition to help avoid the formation of hairballs in just 30 days. It has a unique fiber technology to reduce hairballs formation by moving hair through your cat's system. Its high quality ingredients make it ideal for every day feeding.

Key Benefits

Recommended For:

Adult cats 1 -- 6 years of age prone to hairballs.

Not Recommended For:

Kittens, pregnant or nursing cats.

During pregnancy or nursing, cats should be switched to: **Science Diet® Kitten Healthy Development, Science Diet® Kitten Healthy Development Ocean Fish & Rice Recipe, Science Diet® Kitten Indoor, Science Diet® Healthy Advantage™ Kitten, Science Diet® Ideal Balance™ Kitten**

Benefit	Nutrient	How It Works
Healthy immune function	Vitamin C + E	Ideal levels of clinically proven antioxidants for a healthy immune system.
Helps avoid hairballs in just 30 days	Unique fiber technology	Natural fiber comfortably reduces hairballs formation.
Supports healthy kidney & vital organ function	Phosphorus and taurine	Controlled levels of phosphorus help maintain kidney health and added taurine to help maintain heart health.
Promotes healthy shiny coat	Ideal fatty acid balance	Fatty acids are building blocks for healthy skin and coat.
Gentle formula for everyday feeding	High quality ingredients and lean proteins	Ensures optimal nutrient absorption and lean muscle maintenance.

Other Products to Consider

Science Diet® is available in a wide variety of dry foods for your cat's unique needs. Canned cat food is also available from Science Diet in a variety of delicious textures and flavors that your cat will love.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- **These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.
- **If switching from a canned product, make sure your cat drinks an adequate quantity of water to avoid constipation.**
- **Keep fresh water available at all times!**

- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give him the same precise and balanced nutrition by transitioning your cat to one of the Hill's® Science Diet® Mature Adult pet foods once he reaches 7 years of age.
- Science Diet is available in a wide variety of dry foods for your cat's unique needs. Canned cat food is also available from Science Diet in a variety of delicious textures and flavors that your cat will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
