

Science Diet® Adult Hairball Control Light

Hill's® Science Diet® Adult Hairball Control Light cat food provides precisely balanced nutrition to help control weight and help avoid the formation of hairballs in just 30 days. It contains L-Carnitine to help turn fat into energy and fewer calories than the Hill's® Science Diet® Adult Hairball Control formula. It also has clinically proven antioxidants to support a healthy immune system for your cat.

Key Benefits

Recommended For:

Adult cats 1 -- 6 years of age that are prone to hairballs and weight gain.

Not Recommended For:

Kittens, pregnant or nursing cats.

During pregnancy or nursing, cats should be switched to **Science Diet® Kitten Healthy Development, Science Diet® Kitten Healthy Development Ocean Fish & Rice Recipe, Science Diet® Kitten Indoor, Science Diet® Healthy Advantage™ Kitten, or Science Diet® Ideal Balance™ Kitten.**

Benefit	Nutrient	How It Works
Healthy immune function	Vitamin C + E	Ideal levels of clinically proven antioxidants for a healthy immune system.
Lean muscle and ideal body weight	Carnitine	Converts fat into energy and helps maintain lean muscle mass.
Helps avoid hairballs in just 30 days	Unique fiber technology	Natural fiber comfortably reduces hairballs.
Helps maintain healthy weight	Reduced calories*	Optimal levels of energy for a healthy weight.
Great Taste	High quality ingredients	Precise blend of high quality ingredients for a taste your cat is guaranteed to love.

Other Products to Consider

Science Diet® is available in a wide variety of dry foods for your cat's unique needs. Canned cat food is also available from Science Diet in a variety of delicious textures and flavors that your cat will love.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- **This product is intended for weight maintenance. Should you choose to feed for weight loss, use an ideal or target body weight and consult your veterinarian.**
- **These amounts are a starting point only. Your pet may need less or more food to maintain proper weight or for appropriate weight loss. Adjust as needed. If you are unsure, ask your veterinarian.**
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food

over a 7-day period

- **If switching from a canned product**, make sure your cat drinks an adequate quantity of water to avoid constipation.
- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give her the same precise and balanced nutrition by transitioning your cat to one of the Hill's® Science Diet® Mature Adult pet foods once she reaches 7 years of age.
- Science Diet is available in a wide variety of dry foods for your cat's unique needs. Canned cat food is also available from Science Diet in a variety of delicious textures and flavors that your cat will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
