

Science Diet®

Adult Optimal Care™ Original

Hill's® Science Diet® Adult Optimal Care™ Original cat food provides precisely balanced nutrition to maintain vital organ health and lean muscles. It contains a precise balance of essential nutrients and clinically proven antioxidants to maintain superior overall health and a strong immune system. It also has added taurine to help maintain heart health and controlled phosphorus to maintain kidney health.

Key Benefits

Recommended For:

Adult cats 1 -- 6 years of age.

Not Recommended For:

Kittens, pregnant or nursing cats.

During pregnancy or nursing, cats should be switched to **Science Diet® Kitten Healthy Development**, **Science Diet® Kitten Healthy Development Ocean Fish & Rice Recipe**, **Science Diet® Kitten Indoor**, **Science Diet® Healthy Advantage™ Kitten**, or **Science Diet® Ideal Balance™ Kitten**.

Benefits	Nutrient	How It Works
Healthy immune function	Vitamin C + E	Ideal levels of clinically proven antioxidants for a healthy immune system.
Healthy heart and vital organs	Taurine and Phosphorus	Added taurine to help maintain heart health. Controlled phosphorus to maintain kidney health.
Easy to digest	High quality ingredients	Ensures proper nutrient absorption to keep your cat fit and healthy.
Lean muscle maintenance	High quality lean proteins	Protein is the building block for lean muscle and helps maintain ideal body condition.
Ideal body weight	Precise balance of key nutrients	Delivers the appropriate amount of energy to support ideal body weight.

Other Products to Consider

Science Diet is available in a wide variety of dry foods for your cat's unique needs. Canned cat food is also available from Science Diet in a variety of delicious textures and flavors that your cat will love.

Feeding Guide

Daily Feeding Guide:

Helpful Tips

- **These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.

- When using with canned food, decrease the amount of dry food to avoid overfeeding.
- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give her the same precise and balanced nutrition by transitioning your cat to one of the Hill's® Science Diet® Mature Adult pet foods once she reaches 7 years of age.
- Science Diet is available in a wide variety of dry foods for your cat's unique needs. Canned cat food is also available from Science Diet in a variety of delicious textures and flavors that your cat will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
