WHERE TO BUY ▶

## Key Benefits

### Recommended For:

- Kittens, from weaning until 1 year old.
- Pregnant or nursing cats.

### Not Recommended For:

Long-term feeding to adult cats, unless they have higher than normal energy requirements.

Benefit	Nutrient	How It Works
Healthy immune system	Vitamin C + E	Appropriate levels of clinically proven antioxidants to build a healthy immune system.
Supports healthy brain and eye development	Natural DHA from high quality fish oil	DHA is a building block for healthy brain and eye development
Promotes healthy development of vital organs	Taurine	Essential amino-acid for strong heart and healthy vision development
Supports gentle, healthy digestion	High quality ingredients including gentle fibers	Ensure availability of key nutrients and proteins for the healthy development of your kitten
Supports Ideal body weight	Ideal levels of high quality lean protein for kittens in their first year of life	Protein is the building block for lean muscle that helps maintain ideal body condition

## Other Products to Consider

Science Diet is available in a wide variety of dry foods for your kitten's unique needs. Canned kitten food is also available from Science Diet in a variety of delicious textures and flavors that your kitten will love.

## Feeding Guide

### Daily Feeding Guide:

### Helpful Tips

- **For kittens/pregnant cats: begin by feeding the suggested daily amount. Your pet may need less or more food to**

**maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**

- **For nursing cats:** keep food available at all times.
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.
- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give her the same precise and balanced nutrition by transitioning your kitten to one of the Hill's® Science Diet® Adult cat foods once she reaches 1 year of age.
- Science Diet Kitten is available in a wide variety of dry foods for your kitten's unique needs. Canned kitten food is also available from Science Diet in a variety of delicious textures and flavors that your kitten will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
