Mature cats age 7 and older.

### Not Recommended For:

Kittens, pregnant or nursing cats.

Benefit	Nutrient	How It Works
Promotes kidney health	Phosphorus	Controlled levels of phosphorus help maintain kidney health for mature cats.
Easy to digest	High quality ingredients	Ensures appropriate nutrient absorption to keep your cat fit and healthy.

## Additional Info

- Minced varieties are cooked in savory juices for great taste with a soft, "pâté" texture that's easy to serve.
- Hill's® Science Diet® cat foods are made with high quality ingredients that provide an ideal combination of nutrients for superior overall health. Our 150 veterinarians, PhD nutritionists and scientists ensure that over 50 nutrients in Hill's Science Diet cat foods work together and fall precisely within appropriate ranges, avoiding nutrient excesses and deficiencies that can impact your cat's long term health.
- 100% Guarantee -- your cat will love the taste or you can return the unused portion for a full refund.

## Other Products to Consider

- For variety, try our other Mature Adult Minced flavors: Gourmet Turkey and Savory Chicken.
- Your cat may also like a gourmet canned food with gravy: 2 Delicious & Nutritious flavors - Chicken & Tuna
- For dry food, try Science Diet® Mature Adult Active Longevity™ Original, Ideal Balance™, Hairball Control or Indoor Cat.

## Feeding Guide

### Daily Feeding Guide:

### Helpful tips

- Cover and refrigerate unused portion.
- **These amounts are a starting point only. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure ask your veterinarian.**
- **Keep fresh water available at all times!**
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food

over a 7-day period.

- When using with dry food, decrease the amount of canned food to avoid overfeeding.
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
