WHERE TO BUY ▶

Key Benefits

Recommended For:

- Kittens from weaning until 1 year old.
- Pregnant or nursing cats.

Not Recommended For:

Normally active adult cats age 1 or older.

ingredient	benefit	source
Real & Fresh Chicken	Fresh chicken builds and maintains lean muscle. It's a high-quality, highly digestible protein without added hormones and steroids.	Shipped fresh from USDA-inspected facilities.
Chicken Meal	Chicken meal benefits your kitten's skin, coat and muscle. It's a great source of protein with amino acids.	Chickens from USDA-inspected facilities.
Maize Gluten Meal	When combined with animal protein, maize gluten meal helps build and maintain lean muscle.	Maize grown by farmers in North America.
Egg	Egg helps build lean muscle and a shiny coat. It has the highest essential amino acid content of all naturally-occurring protein sources.	Collected from USDA-inspected facilities.
Wholesome Grains	Brown rice, oats and barley are carbohydrate sources for energy. These wholesome grains are also a source of fiber, vitamins and fatty acids.	Whole grains grown on North American farms.

Carrots, Peas & Broccoli	Carrots, peas and broccoli help the immune system as a natural source of vitamins, minerals, dietary fiber, antioxidants and phytonutrients.	Farm grown in North America and Europe. No added sulfites.
Apples & Cranberries	As natural sources of antioxidants like Vitamin C, apples and cranberries support your pet's immune system on a cellular level.	Farm grown in the United States. No added sulfites.
Flaxseed	Flaxseed gives your cat a lustrous coat and soft skin with essential fatty acids and Vitamin E.	Grown by farmers in North America.
Fish Oil	Fish oil promotes healthy mobility. It's also a natural source of DHA, for better brain and vision development.	Coldwater-caught fish.
Soybean Oil	Soybean oil gives your cat soft skin and a lustrous coat. It's high in fatty acids.	Soybeans grown by farmers in North America.
Vitamins E & C	Vitamins E and C promote body-wide cellular health because these clinically proven antioxidants fight free radicals.	Absorbable, nutritive vitamin supplements

- 100% Guarantee -- pets will love the taste or consumers can return the unused portion for a full refund.
- Fresh Chicken 1st ingredient

Feeding Guide

Daily Feeding Guide:

Helpful tips

- **For kittens/pregnant cats: begin by feeding the suggested daily amount. Your pet may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**
- **For nursing cats:** keep food available at all times.
- Feeding this food for the first time? Mix increasing amounts of your pet's new food with decreasing amounts of the old food over a 7-day period.
- **Keep fresh water available at all times!**
- We recommend that you take your pet to the veterinarian at least twice a year for regular health check-ups.
- Your pet's nutritional needs change with each lifestage. Continue to give her the same precise and balanced nutrition by

transitioning your kitten to one of the Hill's® Science Diet® Adult cat foods once she reaches 1 year of age.

- Science Diet Kitten is available in a wide variety of dry foods for your kitten's unique needs. Canned kitten food is also available from Science Diet in a variety of delicious textures and flavors that your kitten will love.
- **To prevent suffocation, keep this plastic bag out of the reach of pets and children.**
